

# Breeze

design: arch.Margarita Kroucharska\_Gianni Forcolini

Apparecchio con corpo in alluminio pressofuso per l'illuminazione urbana di piazze e percorsi, spazi verdi pubblici e privati, parchi e giardini. La forma dell'oggetto e' ispirata dal linguaggio organico del mondo naturale - il seme trasportato dal vento, un giovane fusto mosso dalla brezza. E' particolare l'incastro "morbido" tra i due elementi - il palo e il corpo illuminante che crea l'illusione visiva di leggerezza e di libero volo nello spazio. Rispetta la normativa anti-inquinamento luminoso, è disponibile in classe II.

*BREEZE with body made of die-cast aluminium. It is a urban column with one or double heads for use in public environments, parks, parking lots and architectural applications. Wood effect finish available in addition to many different finishes. Dark Sky approved system available in accordance with most restrictive regulations on indirect light control emission. Accessories available include an anchor plate.*
